

FREE E-Waste

Collection Event

May 19, 2017 | 9:00 AM - 1:30 PM

The Pueblo of Pojoaque Environment Department and the Pueblo de San Ildefonso Transfer Station will be hosting a FREE E-Waste Collection Event in partnership with Goodwill Industries.

We want to open this event up to our neighboring tribes and as a method to reduce the amount of E-Waste material in our homes and landfills. Open to the Public as well. **SPREAD THE WORD!**

Why Should We Recycle E-Waste

- Recycling recovers valuable materials from old electronics that can be used to make new products. As a result, we save energy, reduce pollution, reduce greenhouse gas emissions, and save resources by extracting fewer raw materials from the earth.
- Protects your surroundings. Safe recycling of old working or non-working electronics promotes sound management of toxic chemicals such as lead and mercury.
- E-Cycling creates job training and creates a market for the valuable components that are dismantled.
- Saves landfill space. E-waste is a growing waste stream. By recycling these items, landfill space is conserved.
- Donating your used electronics benefits your community.

Working or Non-Working

- | | | |
|-------------------|----------------------|------------------------|
| • Computer towers | • Monitors | • Computer accessories |
| • Printers | • Laptops | • Microwaves |
| • Copiers | • Cameras | |
