Speaker Faculty:

Robert Rhyne, MD

Dr. Robert Rhyne is board certified in Family Medicine (1980) and currently sees patients at UNM Family Health Clinic - NE Heights. He is the Vice Chair of Research for the Dept. of Family & Community Medicine. He serves as the Principle Investigator for the HERO TRaILs project. (Health Extension Rural Office - Translating Research Into Localities).

Ernest Dole, PharmD, FASHP

At UNMH, Dr. Dole manages ambulatory care patients with chronic pain, as well as participating on an inpatient Pain Service. Dr. Dole has twice been nominated for the NMSHP Pharmacist of the Year. He has been the Chair of American Society of Health-System Pharmacists Section of Home, Ambulatory and Chronic Care Practitioners and has served as a member on ASHP Councils and Task Forces.

Curriculum is for providers who prescribe opioids and other interested staff and includes:

- An algorithmic approach to treating & managing pain
- Tools for non-opioid therapies
- Tools for initiating opioid therapies
- Resources for inheriting patients already on opioid therapy
- Resources for patient education

LUNCH WILL BE
PROVIDED
