

Pojoaque Valley Schools Educational Foundation
2017 – 2018 Teacher of the Year

The Pojoaque Valley School District has many outstanding teachers. We are asking for your assistance in identifying the teachers whose skills, dedication, understanding and caring for children have made a positive impact on the lives of our students, and whose service has been truly outstanding in its contribution to the overall positive educational climate of the district.

The Pojoaque Valley Schools Educational Foundation Teacher of the Year program is designed to recognize outstanding achievement by a member of our Teaching family. The purpose of the nomination process is to provide a systematic method to identify these individuals and ensure that they receive appropriate recognition for their efforts on behalf of the students in the Pojoaque Valley School District. The PVSD Teacher of the Year will receive a \$1,000.00 award from the Foundation in recognition of this accomplishment.

Once selected, the name of the PVSD Teacher of the Year will be forwarded to NMPED as the District's nominee for the New Mexico Teacher of the Year. It should be noted that the candidate will have a much more extensive application process to complete for NMPED.

Great teaching extends far beyond classroom performance. In fact, the essence of teaching is not just performance, but the effective creation of situations in which learning takes place. The list of criteria that follow represent some of the main concepts that define outstanding teachers. This is not an exhaustive list, and other qualities of excellence can and do exist. It is in no way implied that the award winner must excel in all of these categories.

- The teacher promotes active learning and successfully encourages students to think imaginatively, critically, and independently.
- The teacher promotes a love of teaching and learning.
- The teacher helps students appreciate the relationship between the content they are learning and its place in the scheme of things in everyday life.
- The teacher's pedagogical techniques are appropriate to and effective with a variety of different learning styles and situations.
- The teacher interacts enthusiastically and effectively with students and provides opportunity to promote learning and address individual student needs both in the classroom and outside the classroom.
