

This policy is adopted to ensure that the District is able to provide an extracurricular activities program as an integral part of the educational program.

Employment under an extracurricular activity contract addenda or agreement is severable from employment for instructional duties. Notwithstanding the foregoing, any cause sufficient to justify termination or discharge in one area of responsibility shall be sufficient for any area of responsibility of the employee pursuant to statute and New Mexico Public Education Department regulations.

Employees who resign or are terminated from extracurricular activity responsibilities may be considered for reemployment exclusive of the extracurricular activity, pending the approval of the Superintendent.
